

## TP20 OL

TP 20 OL is a roofing profile with a distinct top and bottom profile. This classic design is suitable for residential homes, commercial buildings, industrial structures, and agricultural buildings. The profile includes a water lock for added protection against water infiltration at the side overlap.

Suitable for most roofs with a slope of at least 14 degrees.

- Available in full lengths up to 8 meters, reducing the number of joints.
- A cost-effective option, making it a great choice for any project.
- Quick and easy installation, allowing you to complete the job faster.
