

## Globalroof® CIN 321BPR

CIN 321 BP R is a flat roof system made of roof steel deck and an inner face of perforated structural trays .The system is recommended for a nice ceiling appearance and a good sound insulation

### Composition

- Structural Tray Hacierco C 500.90 perforated P in thickness 0.75 mm
- Mineral wool Sorock in thickness 70 mm
- Roof deck Hacierco in thickness 0.75mm
- Mineral wool in thickness 140 mm
- Multi layer bituminous waterproof membrane

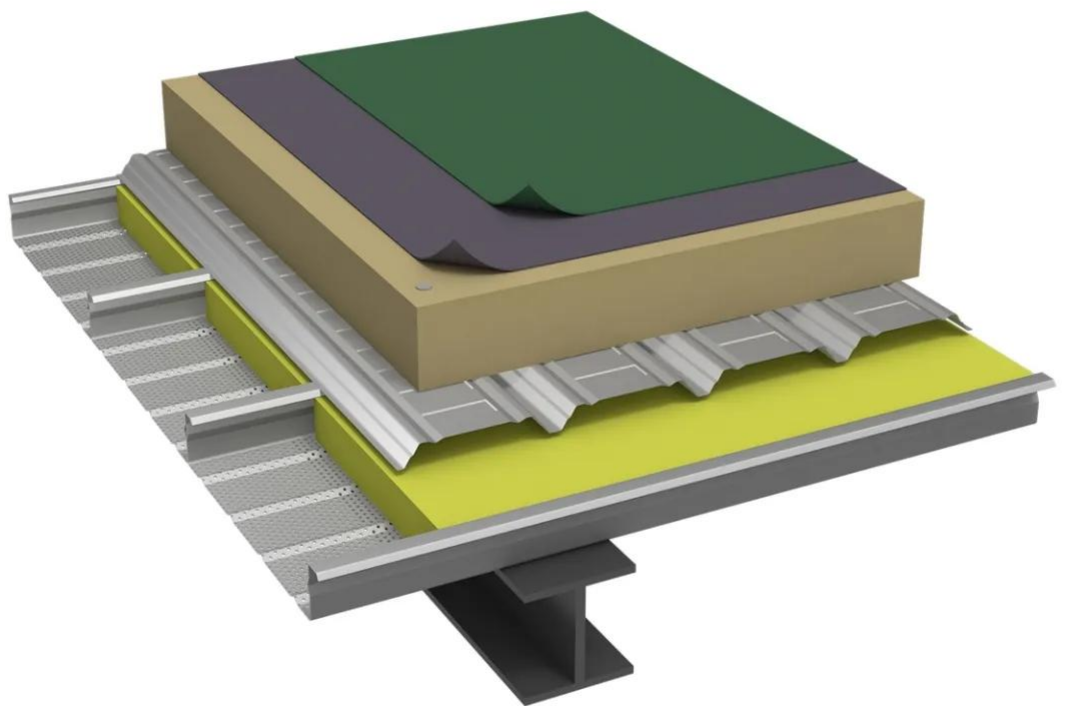

### Performance and characteristics

- Sound reduction index  $R_w(C;Ctr) = 41(-2;-8)$  dB
- Acoustic absorption  $\alpha_w = 0.95$
- Thermal transmittance  $U_p = 0.23$  W/m².K estimated
- Weight: 45 kg/m²
- Spacing: 28 cm
