

Globalroof® SE 20

SE 20 is a flat roof system made of roof steel deck. The speecial geometry of the profile makes the fixations not visible. It provides Up of $0.20\text{W/m}^2\cdot\text{K}$.

Composition :

- Roof deck Hacierco, thickness according to span and loads
- Mineral wool 220mm total thickness ($\lambda = 0.037\text{W/m}\cdot\text{K}$ maximum)
- Multilayer bituminous or PVC waterproof membrane

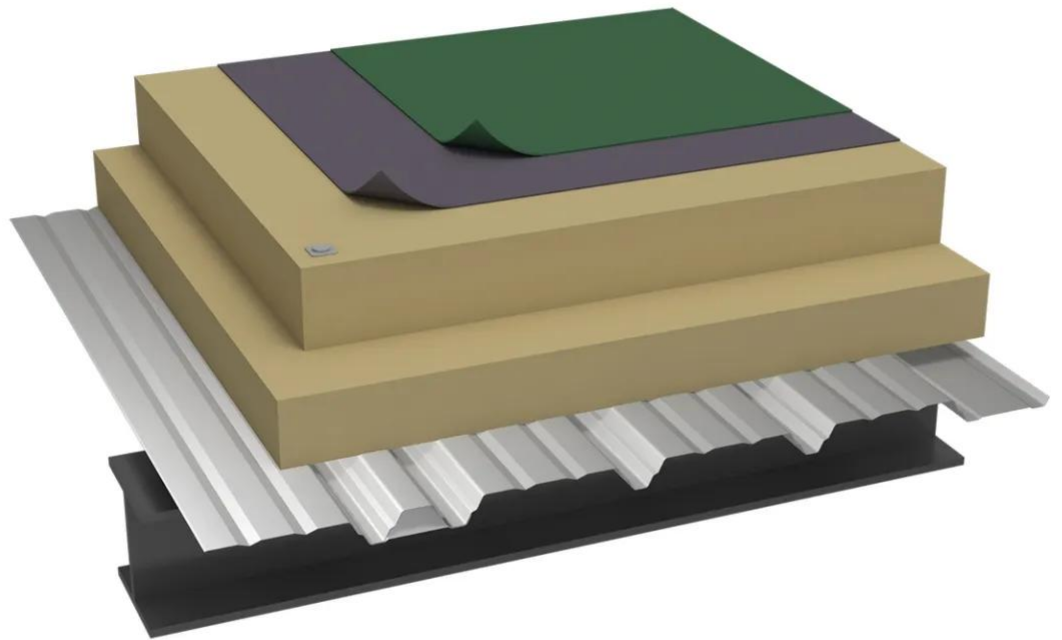

Performance :

- Thermal transmittance $U_p = 0.20\text{W/m}^2\cdot\text{K}$ estimated for 5 fixations/ m^2
