

Lumière

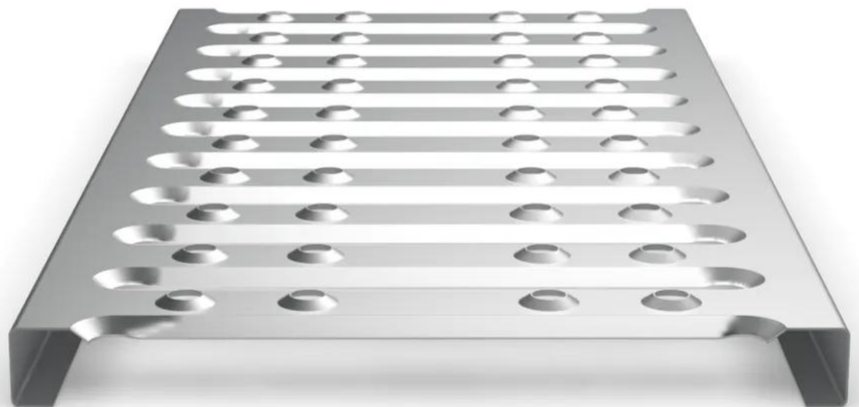

ST Lumière is a decorative metal siding with original perforated and stamped design. It is made of galvanised steel, stainless steel or aluminum. It can be used as sunshade, openwork facade or over roofing. ST Lumière is installed vertically with invisible fixing.

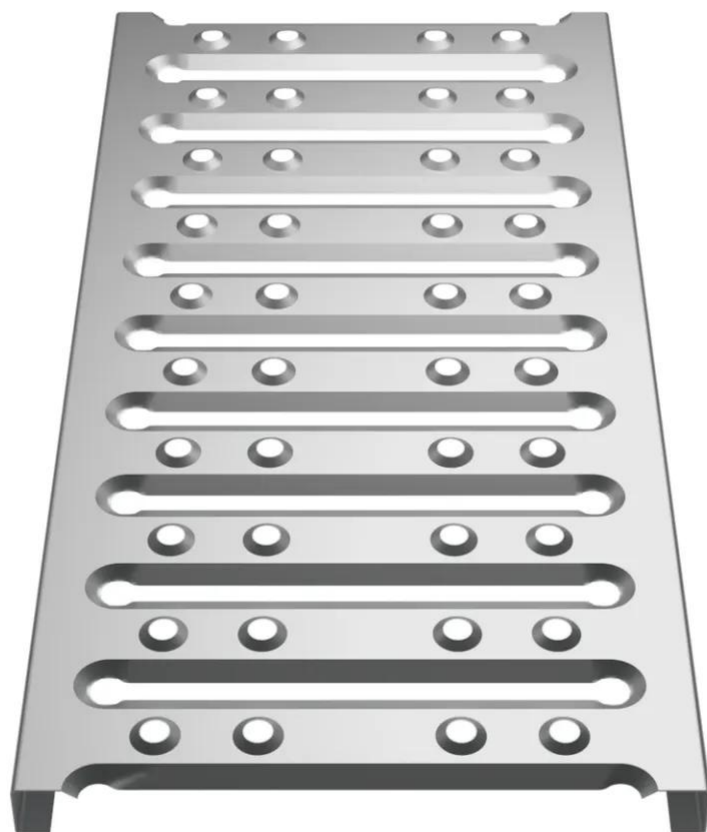

- Fire: incombustible.
- 2 geometries : classic interlocking siding geometry and non-interlocking siding "C", inverted C.
- Made in width of 300mm it really adapts to the dimensional constraints of the building
- Invisible fixing for both geometries
- Vertical installation.
- Maximum length 6017mm
- Steel thickness: 1mm - Aluminium thickness: 1.2mm
- Perforation 17%
- Ends bent on both sides on request.
- Other widths on request.
- This siding also exist un-perforated as [Littoral](#)
