

## ST Origami

ST Origami is 500 mm wide vertical 3D siding made of pre-painted steel or aluminum. It can be associated to flat sidings ST500 type V.

### About Origami...

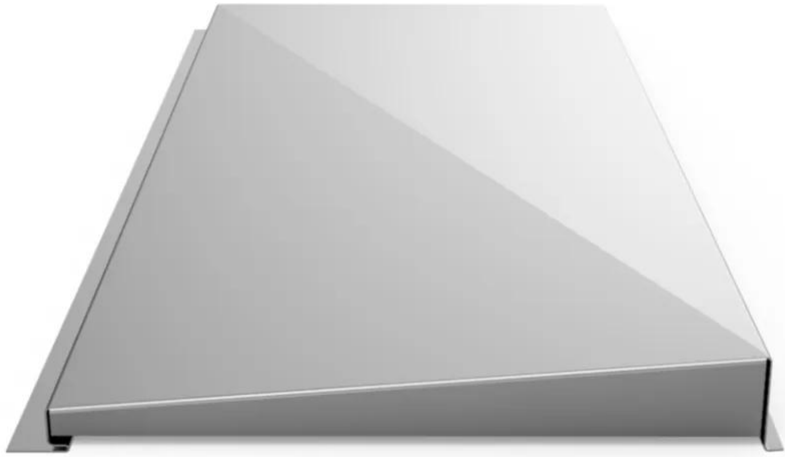

A game of multiplying dimensions and perspectives from a limited space. For a uniform, smooth-looking surface, hides a multitude folds, angles, crevices. The real is resized: each fold, each edge, creates two slopes of the same reality, the visible and the hidden, the inside and the outside. This proliferation of edges, lines, puts in question its visibility, its definition, for a completely different reality ...

- Type V with hidden fixings and closed edges
- Available in widths up to 500 mm
- Maximum length 4000 mm
- Vertical installation
- 1.50 mm thick steel
- Aluminum 2.00 mm thick
- Perforated version on consultation
