

Oxygen

Oxygen is a perforated metallic cassette with an atypical design composed of raised spheres allowing the realisation of 3-dimensional facades.

- Can be used for cladding facades on masonry, concrete or timber frame houses
- Suitable for new construction as well as for rehabilitation
- The cassettes are hung by notches on a specific vertical aluminum support rail, by means of adjustable sliding brackets
- Stainless steel 1 mm thick
- Vertical and horizontal joints of 7 mm
- Hidden fixings
- Perforation type R8T12
