

Cofradal®

Cofradal® is an integrated composite floor system for all types of construction. Its lightness and structural performance allow it to cross large spans. Cofradal® in its Decibel version allows the realisation of an acoustic ceiling in pre-painted steel.

- The integrated composite floor system Cofradal® is available in in different heights: 200mm or 260mm
- Can reach spans of up to 8.0m
- Incorporates fire resistance up to REI120
- Reduces slab weight by up to 50%
- Integrated thermal performance for the raw slab: Up 0,78W/m²K
- Acoustic isolation performance
- Can be ordered with additional acoustic absorption performance: $\alpha_w=0,85$
- Suitable for new construction, major renovations, extensions
